# Emergency contact forms

A mobile app wireframe for an emergency contact form. The top section is a gray header with a black 'X' across it. Below the header is a white content area containing five horizontal gray bars of varying lengths, representing text input fields. The bottom section is a gray footer containing five white square icons, each with a black 'X' inside.

A mobile app wireframe for an emergency contact form. The top section is a gray header with a black 'X' across it. Below the header is a white content area containing a large gray circle, representing a profile picture, and a single horizontal gray bar below it, representing a text input field. The bottom section is a gray footer containing five white square icons, each with a black 'X' inside.

A mobile app wireframe for an emergency contact form. The top section is a gray header with a black 'X' across it. Below the header is a large gray rectangular area, representing a profile picture or a placeholder image. Below this is a white content area containing a single horizontal gray bar, representing a text input field. The bottom section is a gray footer containing five white square icons, each with a black 'X' inside.
